Subject: Fiscal Year 2024 Budget

Dear City Council:

Today, I submit to you the 2024 budget for your consideration. As with all City work, we used the One Sioux Falls framework to help guide the decisions and prioritize the investments presented. Our teams have also been listening intently to the conversations with you the past several months, and they have worked hard to incorporate those into this proposed budget, which is \$790.1 million for 2024.

As we collaborate as One Team throughout this process, we recognize that many departments face the same challenges, including cost escalation and keeping up with our City's record growth. Another challenge is balancing new with taking care of impactful investments already underway. In other words, responsibly maintaining what we are investing in, like the \$55 million Public Safety Campus, the estimated \$16.5 million Jacobson Plaza, and the large aquatics renovations for what eventually is finalized at Frank Olson and Kuehn Parks.

Activating these spaces will require operational investments and strategic planning. In the 2024 Budget, we are adding three building custodians as full-time employees who will be dedicated to the Public Safety Campus and will ensure this 42-acre state-of-the-art facility is properly maintained and cared for. When it officially opens in October of 2023, the Public Safety Campus will be one of the largest and most robust facilities of its kind in the Midwest for our first responders. It will help our Sioux Falls Police Officers and Firefighters elevate their training and skills and will also be home to a new premier Metro Communications 911 dispatch center.

We've budgeted for 24 full-time employees for the year ahead, a proposed \$2.2 million investment in our own workforce to ensure we are planning ahead, meeting the City's growing needs, and strengthening our workforce to retain our employees on our team. Seven of those positions are for new police officers as the department targets a total of 300 officers by 2025.

This all relates to one of the topics residents bring up to my administration often, and that's the conversation of safety in our city. As we are growing, crime rates have remained relatively steady within Sioux Falls, and part of the reason

is because we continue to consciously prioritize these investments for public safety. It's why more than \$94 million of the 2024 budget is for Sioux Falls Fire Rescue and the Sioux Falls Police Department, ensuring both departments have enough vehicles, appropriate equipment, and personnel to help keep Sioux Falls safe. The positive collaboration of these teams and Metro 911 is the key to protecting and serving our residents efficiently.

Housing is another topic that's always top-of-mind and one of the focus areas of the One Sioux Falls framework. It serves as a constant reminder the importance of having housing inventory and options at all income levels throughout the city. A total of \$10.8 million will be dedicated to housing in 2024. This money will continue to be used to reinvest and leverage funding in various ways while working with community partners to address residents' housing needs.

As more families choose to make Sioux Falls their home, it's important we strive to keep up with the growth, balancing the needs and wants of residents that will keep Sioux Falls as one of the top places to live. It is why almost 60 percent of the operating and capital expenses in the 2024 budget is dedicated to necessary infrastructure investments, like more than 700 blocks of street reconstruction and the continued construction of South Veterans Parkway. In 2024, we continue to emphasize the significance of quality of life investments as well. This budget plans for major investments in aquatics throughout the city, including an expansion to the locker rooms at Midco® Aquatic Center thanks to a public-private partnership and the replacement of McKennan Park wading pool.

The proposed 2024 budget reflects months of collaboration as One Team among all departments, which I hope to continue as we have productive conversations on how we can responsibly move Sioux Falls forward and keep the positive momentum in our community.

Best regards,

Mayor Paul TenHaken

CITY OF SIOUX FALLS FINANCIAL PROFILE

Prudent and Appropriate Reserves

The General Fund total unassigned and assigned fund balance, combined, was \$82.8 million, an increase of \$5.1 million. This increase was primarily due to higher than anticipated sales tax revenues, on-sale liquor licenses, and building permit growth. The City has a reserve policy target of that as of December 31 of each fiscal year equal to 25% to the total General Fund expenditure budget for that year.

Sales Tax Growth

First Penny sales tax collections, is the City's largest revenue source. The City experienced a significant increase of sales tax collections in 2022, even after a large increase in 2021. This revenue source ensures the City is able to fund essential services and keep pace with infrastructure growth. As of December 31, 2022, the City's sales tax growth rate was 12.2%. The 2024 Sales Tax estimate is built on a more conservative historical average of 4-5% for both 2023 projection and 2024.

Property Tax Growth

Property tax revenues is one of the major revenue sources to the primary operating account, the General Fund. This revenue is integral to supporting continued growth and keeping up with inflation.

Entertainment Tax Growth

The Entertainment Tax is derived primarily from a third penny tax on lodging, sales on alcoholic beverages, dining out, as well as ticket sales for entertainment related services. This tax can be seen as an indicator for the local economy as it primarily represents discretionary spending. The City is continuing to see strong collections after experiencing a rebound in 2021 from the COVID pandemic. Looking forward the City is anticipating a more normalized and conservative growth rate of 5% for both 2023 projection and 2024 budget.

Debt Position

The City borrows only for large capital infrastructure projects. City debt levels are both prudent and are substantially below the debt per capita position of regional peers. The City of Sioux Falls manages the repayment of its long-term debt which remains well below policy coverage targets of 50% of projected sales tax revenues. The 2024 Budget includes \$15.6M of debt service payments supported by the 2nd penny sales tax.

OPERATING BUDGET IMPACTS

REVENUE

\$116,647 increase in grants is primarily due to the timing of one-time grants expiring (COVID/ARPA) and budgeting for new HOME Grant of \$1.8M in 2024. \$400,000 decrease is due to the change in business practice of constructing and selling single family homes. \$68,039 combined increase due to the timing of projects, loan repayments for program income, state flex loans, and revitalization revolving income. \$50,000 decrease is due to the removal of a one-time budgeted contribution in 2023. \$460,232 increase in General Fund Transfers supporting the Housing initiatives.

PERSONNEL

\$112,499 increase in fulltime wages and benefits is primarily due to internal allocation of positions. \$65,700 increase in part-time to support housing programs and fair housing service levels.

PROFESSIONAL SERVICES PROGRAMMING

\$115,169 increase is primarily related to increasing funding

for our Rental Rehab Program and the development of two new programs. The first program is to support the rehab of troubled homes (vacant or dilapidated) and the second is to pilot a historic rehab program. This increase is offset by the removal of \$400,000 due to a change in business practice of constructing and selling new homes.

PROFESSIONAL SERVICES OTHER

\$2,115,169 increase is related to increasing funding for our Rental Rehab Program and the development of three new programs. The first new program is to support the rehab of troubled homes (vacant or dilapidated) and the second is to pilot a historic home rehab program. The majority of the increase, \$2,000,000, was for a new program established by Council to support housing for individuals and families at or below 40% of the median-family income. The total increase is offset by the removal of \$400,000 due to a change in business practice of constructing and selling new homes.

PROFESSIONAL SERVICES OTHER

\$12,806 increase for hazardous testing and filling fee

costs associated with housing programs based actual trends.

RENTALS

\$1,138 increase due to a City-wide adjustment in internal technology rental charges for cyclic replacement, security, and network enhancements.

SUPPLIES AND MATERIALS

\$31,151 increase due to the purchase and implementation of new software for the enrollment, administration, and reporting of housing programs.

REPAIRS AND TRAINING

\$1,000 decrease related to adjusting categories based on actuals.

LEASE PAYMENTS

\$200 being reclassified per government accounting rules as lease payments for multi-year operating expense contracts (printers, subscription software, rentals).

TAX INCREMENT FINANCING FUND ////////////////////////////////////

The City utilizes Tax Increment Financing as a development incentive in our community. Private development helps to create jobs and attract customers, which in turn, attracts more private development. Since the City established its first TIF District in 1989, it has taken a conservative approach to the establishment of TIF Districts and aims to effectively and reasonably use TIF to incentivize job creation and investment in the community.

OUR PURPOSE

The Sioux Falls regional sanitary landfill serves five counties and a population of over 300,000, collecting an average of 28,000 tons per month of household waste, including construction and demolition debris. It continues to make Sioux Falls more sustainable by partnering with commercial haulers to increase recycle rates and support our household hazardous waste program to protect natural resources and safeguard the landfill's longevity.

Instead of escaping into the air, landfill gas (LFG) is captured, converted, and used as a renewable energy resource, helping to reduce odors and hazards associated with LFG emissions. Through investments in technology, the landfill has collected LFG from an approximately 350-acre footprint that is processed before being directed to the POET ethanol plant in Chancellor.

OUR FOCUS

DELIVERING EXCEPTIONAL AND RELIABLE SERVICE TO MEET CURRENT AND FUTURE GROWTH DEMANDS SUPPORTED SOLELY BY USER FEES

DIVERTING WASTE FROM THE LANDFILL—THROUGH RECYCLING, COMPOSTING, AND REUSE PROGRAMS—TO EXTEND THE LIFE OF THE LANDFILL WHILE BENEFITING THE LOCAL ECONOMY AND NATURAL RESOURCES

IMPROVING CUSTOMER EXPERIENCE BY EXPANDING THE PUBLIC DROP-OFF AREA, A RE-DESIGNING THE SCALE HOUSE AND CUSTOMER ENTRANCE, AND CONTINUING TO INVEST IN TECHNOLOGY TO SUPPORT MAXIMIZING BOTH THE AMOUNT OF MATERIALS/ITEMS PASSING THROUGH THE SYSTEM, AND WAIT TIMES

CONTINUING TO MAINTAIN CURRENT LANDFILL GAS AND LEACHATE (CONTAMINATED LIQUID) INFRASTRUCTURE BY REPLACING VERTICAL WELLS AND ADDING HORIZONTAL PIPING TO MINIMIZE EMISSIONS AND MAXIMIZE LANDFILL GAS AND LEACHATE COLLECTION

2024–2028 CAPITAL PROGRAM

The 2024–2028 (5 years) capital program maintains our existing infrastructure while making strategic investments in the future. The top priority is the replacement, rehabilitation and expansion of the street and utility infrastructure. Quality of life investments are also planned for our park system and entertainment venues. The program prioritizes the City’s plan to invest \$1.1 billion over the next five years in the City’s infrastructure, facilities, equipment, and other capital improvements. The program is a blueprint for general planning purposes. Presented with a financing strategy, the program details the sources and uses for

each project. It is important to understand that only the first year of the program is incorporated into the 2024 budget.

The program consists of two portions; the capital improvements program (CIP) and the other capital expenditures program (OCEP). The CIP consists primarily of land acquisition, infrastructure improvements such as streets and utilities, acquisition or construction of buildings, and other improvements to facilities or property such as parks. The OCEP is comprised of vehicles and capital equipment.

Subject: Proposed Capital Improvement Program 2024–2028

Dear City Council:

Enclosed is the proposed five-year Capital Program for 2024-2028. During a special meeting on July 20, 2023, I will present an overview of this program and the Fiscal Year 2024 Budget. Thank you in advance for the extensive time and effort you will spend reviewing the documents in the coming months. Your collaboration with my administration is vital to keeping Sioux Falls investable while strategically addressing and planning for growth. Sioux Falls has grown to be the 121st largest city in the United States with an estimated 208,884 people who call our city home. Totaling over \$1.1 billion over five years, this is the largest Capital Program in our city's history and is reflective of the continued growth we are experiencing. The plan prioritizes these growing needs across the city and will invest \$301.6 million in projects in 2024, including street and utility infrastructure, park improvements, and public safety improvements.

As the prioritization of the plan took shape, we are still battling the same storylines we have been experiencing over the past couple of years including inflationary pressures, supply chain issues, and a rapidly growing city. The cost of doing business has increased for everyone, and the City of Sioux Falls is not immune to that as we invest in projects throughout the city. For example, the cost of vehicles across the city has increased by 20 percent, on average, since the pandemic started, and the cost of asphalt has increased by 45 percent. As a result of these economic pressures, we asked to increase rates for four of the five utilities that needed it. I want to thank you for approving those increases that will start in 2024, setting our city up for success long-term, while continuing to provide the safe and reliable utility infrastructure that our customers expect.

In general, what I hear from residents is that they expect a safe community, a smooth commute, and things to do year-round in Sioux Falls. This Capital Program balances the needs and wants while staying fiscally responsible.

We will continue to prioritize investments in public safety, equipping our Police and Fire Rescue departments with what they need and strategically planning for physical growth. This includes acquiring land for the next fire stations when the opportunities present themselves. This Capital Program plans for the construction of the 13th fire station in the city in 2026 and the construction of a police report to work station in east Sioux Falls in 2027.

Traditionally, the largest chunk of the Capital Program is for highways and streets, and this year is no different with more than \$457 million of planned investments in this category. Much of that is responding to what the South Dakota Department of Transportation will invest, which is close to \$765 million in and around Sioux Falls from 2023 to 2026. Almost \$465 million of that will be invested in city limits. This is great for Sioux Falls, but

it also means we as a city have big commitments in the next several years that affect our Capital Program. We need to continue to be good partners and invest in the necessary arterial streets to move these projects forward, which includes (but is not limited to):

- Benson Road and I-229 Interchange
- South Veterans Parkway
- 85th Street and I-29 Interchange
- Cliff Avenue and I-229 Interchange
- Minnesota Avenue and I-229 Interchange

Part of what makes a community special is its quality-of-life investments. We look forward to seeing some of those we have already committed to come to life in the coming years, like Jacobson Plaza and the third phase of the downtown River Greenway. One of the most-anticipated investments in this Capital Program is the aquatic facilities improvements which will bring new pools and expanded recreational amenities to Frank Olson, Kuehn, and McKennan Park. Along with the bright future of aquatics, other investments include expansion of the bike trails and investments in neighborhood and regional parks.

As you consider the program for 2024-2028, I hope you feel proud to live in a city that can make these types of large-scale investments while staying fiscally responsible. We know the private sector invests based on what we are planning, so it's important we continue to keep Sioux Falls on the right path. It truly takes a One Sioux Falls effort to balance the program while planning and prioritizing what Sioux Falls will need in the coming years. I look forward to working together for this community that can trust we have done our due diligence to continue the positive momentum of this amazing city we call home.

Best regards,

Mayor Paul TenHaken
